CATERPILLAR®

WE ARE ENERGYST. POWERED BY CATERPILLAR

POWER AND TEMPERATURE CONTROL ARE VITAL TO PROTECT THE SAFE AND EFFICIENT OPERATION OF YOUR MINING PROJECTS. ANY INTERRUPTION TO YOUR SUPPLY CAN HAVE FAR-REACHING EFFECTS. NOT JUST FOR THE EQUIPMENT DEEP UNDERGROUND, BUT FOR FACILITIES ON THE SURFACE TOO. WHAT IS MORE, UNEXPECTED FAILURES ARE NOT JUST COSTLY IN TERMS OF YOUR FINANCES, THEY MAY ALSO PRESENT A DANGER FOR YOUR MINE WORKERS. SO WHEN YOU NEED A POWERFUL SOLUTION THAT YOU CAN REALLY RELY ON, IT PAYS TO GET REAL ENERGY FROM ENERGYST.

Trust Energyst CAT Rental

Energyst CAT Rental Power is one of the world's leading providers of power and temperature control rental solutions for the mining industry. As a joint venture between Caterpillar and its dealers, our extensive range of world class rental equipment includes everything from power generators and load banks to heating and cooling solutions for energy-efficient temperature control. And if the world's leading manufacturer of diesel and natural gas engines can trust Energyst with their reputation, it goes without saying that you can rely on us too.

Global reach, local knowledge

Thanks to our special relationship with Caterpillar, Energyst can provide a unique level of service too. Wherever your mining operations take you, no one is better placed than Energyst to help you. Not only can our branches be found across the globe; we also work in close collaboration with the many Caterpillar rental partners globally. Which means that unlike other rental companies, we can genuinely think globally and act locally.

**WE'RE
HERE
FOR
YOU
24/7**

MINING

WE'LL PUT REAL ENERGY INTO SUPPLYING YOUR POWER

MINING CAN BE A DANGEROUS OCCUPATION – AND ONE OF THE MOST DEMANDING SECTORS IN INDUSTRY. ON-SITE POWER IS NEEDED FOR A WIDE RANGE OF EQUIPMENT, FROM ELECTRIC SHOVELS AND DRAGLINES TO HEATING, COOLING AND VENTILATION EQUIPMENT. IT'S ALSO ESSENTIAL ABOVE GROUND FOR ACCOMMODATION, OFFICES, STORAGE FACILITIES AND SITE SECURITY. BUT MANY MINES ARE IN REMOTE LOCATIONS THAT ARE WAY BEYOND THE REACH OF NATIONAL POWER GRIDS. ENERGYST WILL PUT REAL ENERGY INTO PROVIDING THE SAFE AND RELIABLE POWER SUPPLY YOU NEED TO KEEP YOUR MINE WORKING EFFICIENTLY AND COST EFFECTIVELY.

**SAFETY MUST
COME FIRST IN
ANY MINING
ENVIRONMENT.**

Powerful solutions

Energyst can meet all your energy needs with flexible power solutions including self-contained modules, multi-megawatt capabilities, transformers, switchgear, cables and fuel tanks. For early power before grid supply or mains installation, emergency back up, or when you need more power than the reserve capacity of the grid. Transportable and safety engineered to the highest standards, our equipment comes with optimum protection for high and low voltages. It's also packed full of features that maximise power output, make it easy to operate and simple to deploy within other networks. And if you need something special, we can use our in-house design and engineering expertise to custom-make a solution to fit your exact requirements.

Temperature control

The deeper the mine, the hotter the conditions become. It's a challenge that requires specialist expertise. Energyst can supply all the cooling equipment you need for essential temperature control. We have an extensive range of CAT Rental equipment for air and liquid cooling.

Our self-contained, closed system cold water chillers can provide cooling at a distance, or supply cold water for process cooling. We also have a wide range of air coolers and air handlers for maintaining personal comfort. So when temperatures soar, your equipment, and your workforce, stays cool.

100% RELIABLE POWER WITHIN YOUR REACH

When you rely on power, you need a rental partner that's 100% reliable too. Energyst is the leading company for Caterpillar rental power, with unique access to the global network of CAT dealerships. We provide customers with power and temperature control solutions for a wide range of disciplines, delivering full turnkey solutions for mines all over the world. Whether you need power for mine construction, accommodation or support facilities, our international teams of experienced consultants and technicians work closely with you to understand the unique requirements of each mining project. So they can recommend the very best solution from rapid deployment and delivery to installation, maintenance and beyond.

Trust CAT performance

Caterpillar has been the world's leading manufacturer of generators and diesel engines for more than 85 years. As a subsidiary of Caterpillar Inc, we're uniquely placed to provide you with 100% Caterpillar quality and reliability in all our products and services. Not only are CAT engines designed to meet the most stringent emission standards, they're also economical to use. Our solutions can also include the latest advanced equipment features, such as Cat's unique 24/7 remote monitoring and communication capability.

One point of contact

We believe that partnerships are powered by professionalism. In addition to the services of our trained, certified and experienced technicians, you'll also have a dedicated account manager. It gives you a single point of contact for all your rental requirements. No need to process and authorise multiple suppliers for access to your site. One call to Energyst and it's done.

Emergency response

Faced with a power failure, or lack of supply, you need a supplier that can deliver a solution –fast. We have proven experience in emergency projects, providing temporary power on site, on time. And we're on hand around the world, around the clock. So even if you're located in one of the remotest places on the planet, you can trust us to provide 24/7 power.

Safety as standard

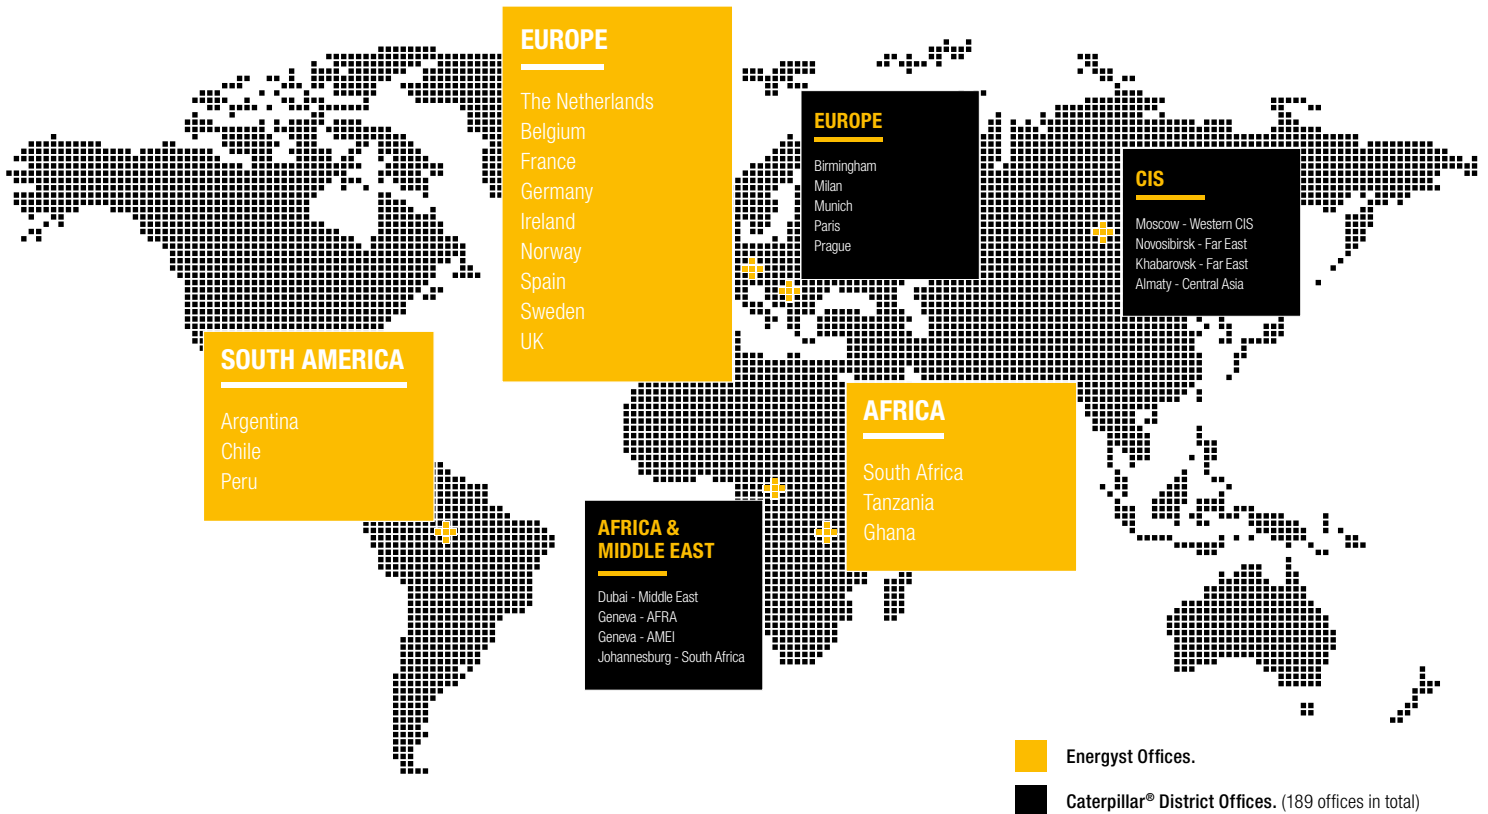

We understand that safety must come first in any mining environment. It's something that we adhere to in everything we do, from our specialist equipment to our emphasis on safety training for all our engineers, installation and operation teams. We're committed to following Quality, Safety, Security and Environment (QHSSE) standards, programmes and procedures in all aspects of our work. Because the safer we are, the more confidence you have in our products and services.

WE'RE HERE TO HELP

At Energyst we understand that no two mining projects are ever the same. So if one of our standard solutions doesn't quite meet your needs, we'll create a customised solution that's tailored to your exact requirements. To find out more our design and engineering expertise, or to ask our advice on power, heating or cooling, call 00800 3637 4978.

We'll put all our energy into helping you find the right solution.

ENERGY EXPERTS AROUND THE GLOBE.

Energyst CAT Rental Power is one of the world's leading providers of power and temperature control rental solutions. As a joint venture between Caterpillar and its 189 dealers, our extensive range of world class rental equipment includes everything from power generators and load banks to heating and cooling solutions for energy-efficient temperature control.

We are Energyst CAT Rental Power

When it comes to equipment hire, we are CAT rental. And if the world's leading manufacturer of diesel and natural gas engines can trust Energyst with their reputation, it goes without saying that you can rely on us too.

Think global, act local

Thanks to our special relationship with Caterpillar, Energyst can provide a unique level of service too. Not only can Energyst branches be found across the globe; we also work in close collaboration with the many Caterpillar rental partners globally. Which means that unlike other rental companies, we can genuinely think globally and act locally.
