CATERPILLAR®

WE ARE ENERGYST. POWERED BY CATERPILLAR

IN SHIPPING, THE QUALITY OF YOUR EQUIPMENT IS CRITICAL TO SAFETY AND PERFORMANCE – ONSHORE OR OFFSHORE. YOU NEED NOTHING LESS THAN 100% RELIABILITY FOR POWER, TEMPERATURE CONTROL AND TESTING, NOT ONLY TO SAFEGUARD OPERATIONS, BUT TO PROTECT THE PEOPLE WHO WORK FOR YOU. WHAT IS MORE, UNEXPECTED FAILURES ARE NOT JUST COSTLY IN TERMS OF YOUR FINANCES, THEY COULD ALSO ENDANGER LIVES OUT AT SEA. SO WHEN YOU NEED A POWERFUL SOLUTION THAT YOU CAN REALLY RELY ON, IT PAYS TO GET REAL ENERGY FROM ENERGYST.

Trust Energyst CAT Rental Power

When it comes to equipment hire for shipping, we are CAT rental. And if the world's leading manufacturer of diesel and natural gas engines can trust Energyst with their reputation, it goes without saying that you can rely on us too. As a subsidiary of Caterpillar dealers and Caterpillar Inc., our extensive range of world class rental equipment includes everything from power generators, load banks, transformers and off-shore power modules to heating and cooling solutions for energy-efficient temperature control.

Global solutions, local know-how

Shipping has no borders and neither do we. Thanks to our special relationship with Caterpillar, Energyst can provide a unique level of service. Not only can our branches be found all around the globe; we also work in close collaboration with the many Caterpillar rental partners globally. Which means that unlike other rental companies, we genuinely think global and act locally.

SHIPPING

WHEN IT COMES TO SHIPPING, YOU CAN RELY ON ENERGYST

THE INTERNATIONAL MARINE ORGANISATION (IMO) HAS A UNIQUE SET OF REQUIREMENTS WHEN IT COMES TO SAFETY ON BOARD AT SEA (SOLAS) AND MARINE POLLUTION (MARPOL). THESE REGULATORY REQUIREMENTS ARE OFTEN MORE STRINGENT THAN ANY OTHER BRANCH OF INDUSTRY. SO IT'S IMPERATIVE THAT THE RENTAL EQUIPMENT YOU USE COMPLIES WITH THE CORRECT STANDARDS. RELYING ON A STANDARD SOLUTION IS SIMPLY NOT GOOD ENOUGH SINCE EACH SHIPPING PROJECT HAS ITS UNIQUE REQUIREMENTS. THEREFORE YOU NEED THE REASSURANCE THAT YOU'RE RENTING FROM A PROFESSIONAL PARTNER. ONE THAT'S COMPLETELY ON BOARD WITH COMPLEX MARINE SPECIFICATIONS AND CAN PROVIDE YOU WITH A WATERTIGHT SOLUTION.

WE UNDERSTAND THE ENTIRE INDUSTRY FROM VESSEL CONSTRUCTION AND ENGINE TESTING TO DOCKING PROCEDURES AND MARINE TRANSPORTATION.

We are Energyst CAT Rental Power.

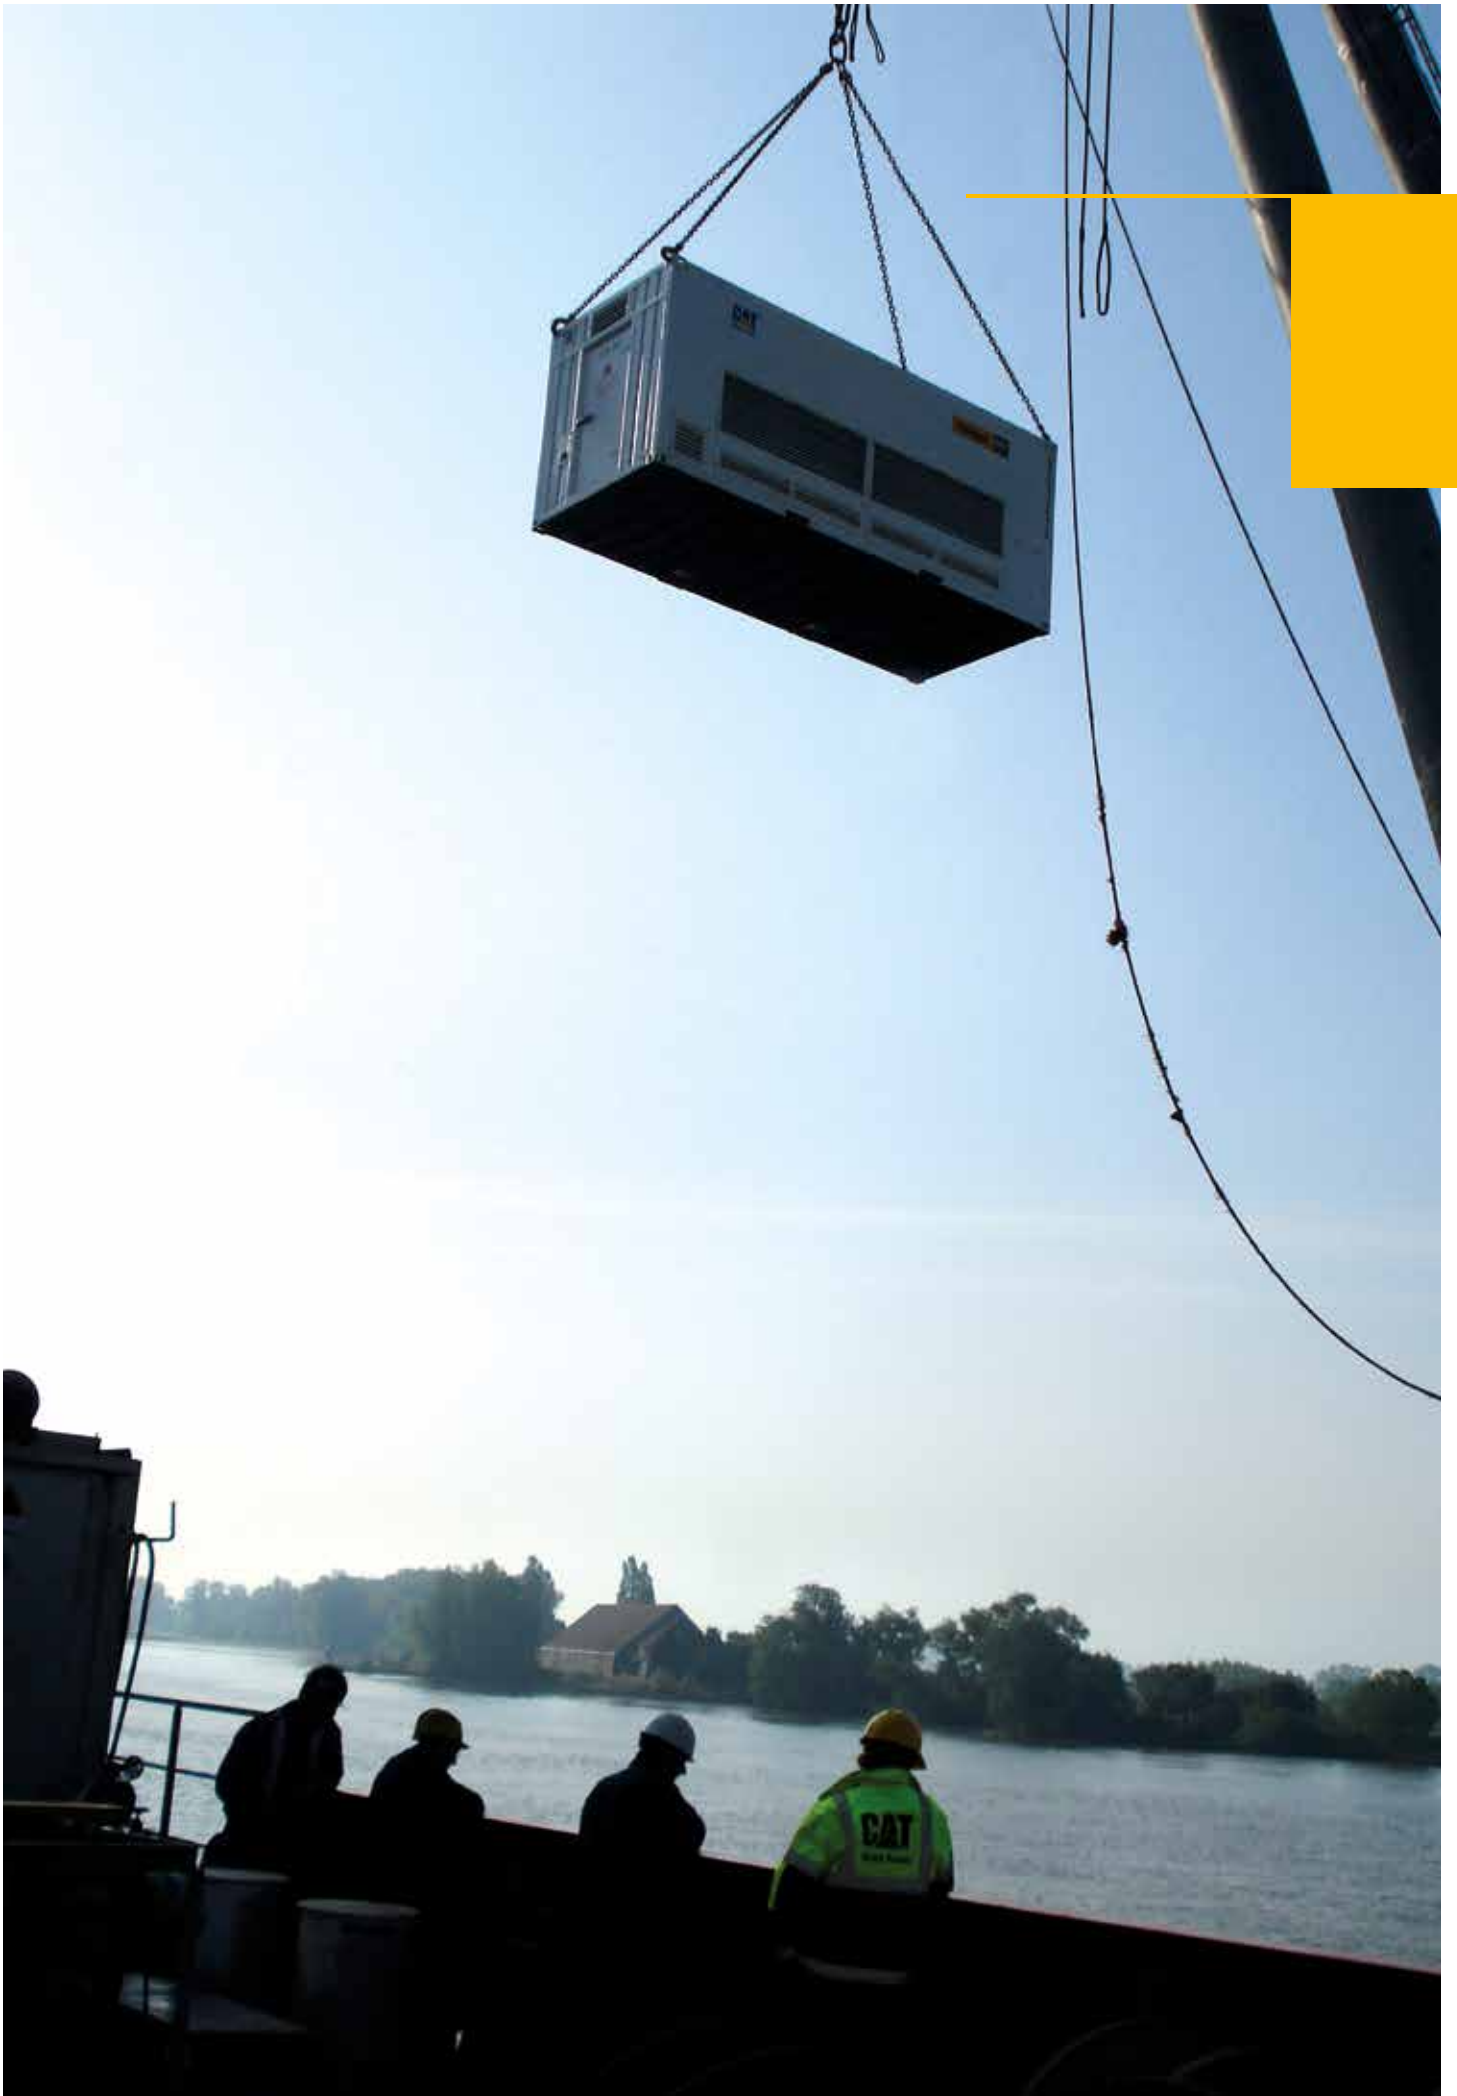

Unlike other power rental companies, Energyst bears the CAT brand – a name synonymous with quality and reliability. It's also one that's well recognised in the shipping industry. Many ship's engineers prefer CAT generators because they use exactly the same engines as those that are on board of their vessels. That means they already have knowledge of how CAT engines work - and replacement parts. But they also know that from harbours all over the world they can access our vast network of depots that collaborate with Caterpillar dealers for expertise and local support.

The shipping experts

Energyst is your shipping expert. In fact we understand the entire industry from vessel construction and engine testing to docking procedures and marine transportation. We also have a vast offshore expertise, working with a variety of clients from those that install structures in the marine environment to customers that carry out operations for the Oil & Gas industry. We've gained our experience by working with shipping companies, construction companies, harbour operators and contractors at every level. So whether you're planning to build a sea-going vessel, or have a technical problem onboard an ocean liner, we have all the rental power and expertise you need.

Safe power and temperature control

In shipping, a safe, reliable and efficient power supply is essential. We have a wide variety of equipment from Caterpillar diesel generators of 135 kVA to 2000 kVA to load banks for generator testing from 100 kW up to 6 MW. We can also supply a complete range of temperature control solutions, including air coolers and heaters or water coolers and heaters.

WE PUT REAL ENERGY INTO FINDING A WATERTIGHT SOLUTION

The highest standards

Shipping has some of the most complex safety guidelines for temporary equipment. You can be sure that Energyst operates to the most stringent and highest quality standards. And because safety is even more important offshore, our rental equipment can be fitted with all the essential add-ons. These include fire detection systems, fire extinguishing equipment to ensure that your solution is compliant with marine regulations.

Technical expertise

Our technical experts are highly qualified and can be hired to maintain and operate all our equipment. We also have a technical support team available to help you 24 hours a day, 7 days a week. With people and equipment always on standby, we can respond to an emergency call out in less than 24 hours, which means you get Real Energy from Energyst, right around the clock.

Turnkey solutions

However large or small your project, Energyst can help. With our in-depth knowledge of the shipping industry we can provide complete turnkey solutions. From technical design and planning to installation and start up. We're passionate about problem solving and will go out of our way to find the right solution to help you achieve your goals. So you can put Real Energy into your core business.

Shipping logistics

Wherever there is a shipping industry, we have the expertise to help. We're also strong on logistics and can organise all your shipping, importation and documentation requirements through a single point of contact. Add to that our extensive network of branches and our close collaboration with local CAT dealers and you can trust Energyst for a local solution on a global scale.

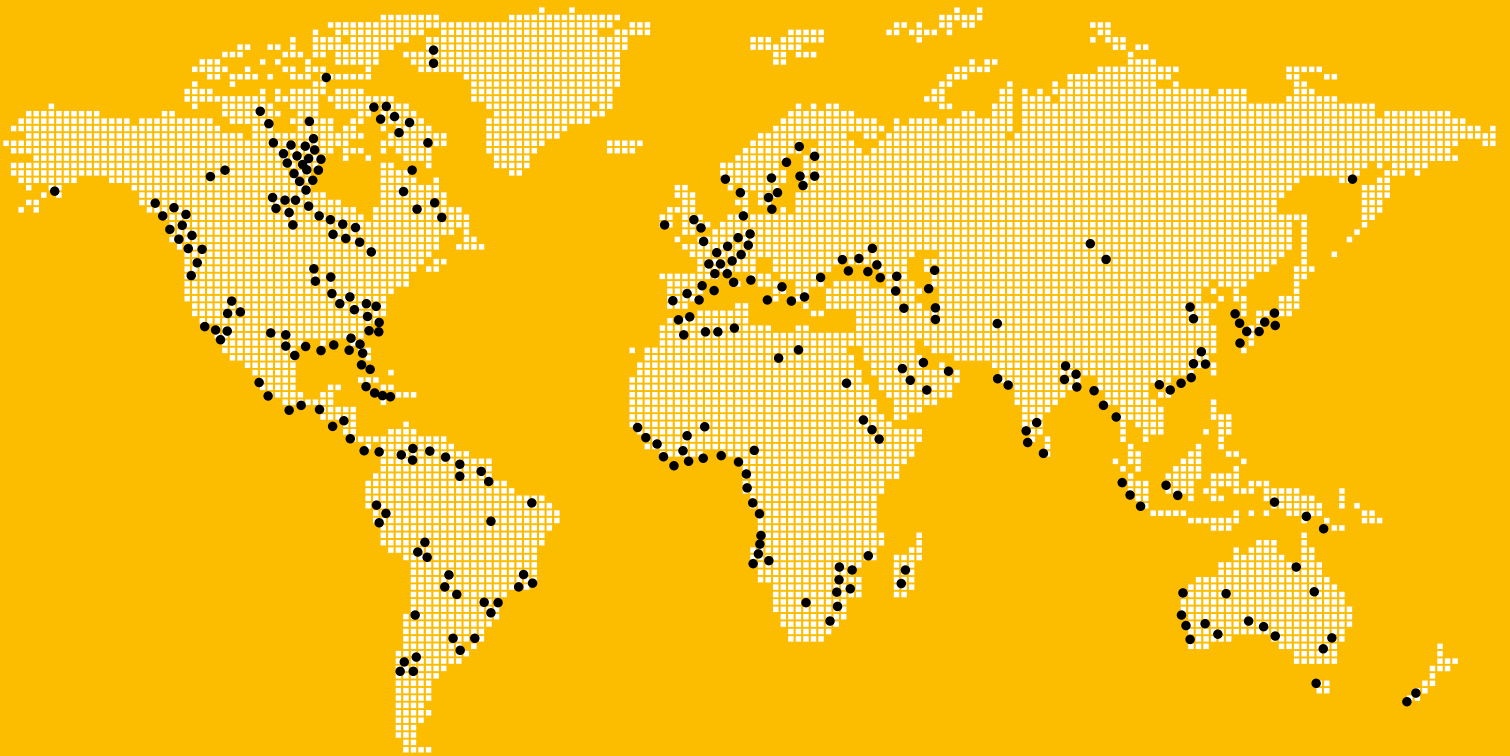

WE'RE
HERE
TO HELP

At Energyst we understand that no two shipping projects are ever the same. So if one of our standard solutions doesn't quite meet your needs, we'll create a customised solution that's tailored to your exact requirements. To find out more about our design and engineering expertise, or to ask our advice on power, heating or cooling, call 00800 3637 4978.

We'll put all our energy into helping you find the right solution.
